Yersiniosis * I

Malaria '

* These conditions are reportable by directors of laboratories. In addition, these and all other conditions are reportable by physicians and directors of medical care facilities.

A laboratory identifying evidence of these conditions shall notify the health department of the positive culture and submit the initial isolate to the Virginia Division of Consolidated Laboratory Services (DCLS).

Physicians and directors of medical care facilities should report influenza by number of cases only (report total number per week and by type of influenza, if known).

~ A laboratory identifying Mycobacterium tuberculosis complex shall submit a representative and viable sample of the initial culture to DCLS or other laboratory designated by the Board to receive such specimen.
